

JOSHUA YAN

New York, NY

SUMMARY

Engineering leader with 6+ years building healthcare technology at Kinetik. Promoted from Software Engineer to Team Lead in 2023; grew team from 5 to 10. Designed and delivered core systems for NEMT brokers and providers, processing 200K+ trips per month and driving \$12MM+ in ARR.

SKILLS

Languages & Frameworks: JavaScript, Node.js, React

Cloud & Infrastructure: AWS (Serverless, Lambda, SQS, SNS)

Data: MongoDB (Mongoose)

Practices & Leadership: System design, API-first development (Postman), serverless architecture, cross-functional collaboration, on-call leadership, mentorship

EXPERIENCE

Kinetik | New York, NY Oct 2019 – Present

Team Lead Jul 2023 – Present

Software Engineer Oct 2019 – Jul 2023

- **Drove \$12MM+ in ARR** by leading delivery of the cornerstone application that captured Kinetik's strategic NEMT partnerships.
- **Scaled platform to 200K+ trips processed monthly** across hundreds of users, serving NEMT insurance providers, brokers, transportation companies, and TNCs.
- **Promoted from Software Engineer to Team Lead in July 2023**; grew the engineering team from 5 to 10, owning hiring, mentorship of junior engineers, and on-call leadership.
- **Architected the transition from a monolithic backend to AWS serverless**, improving scalability and unlocking growth in trip volume without proportional infrastructure cost.
- **Designed the core schemas, databases, and system architecture** underpinning the full product suite — patient management, trip scheduling, dispatch, attestation, and claims generation.
- **Built and shipped API services and partner integrations** by evaluating partner specs and applying custom business logic; spearheaded the team's adoption of an API-first development workflow with Postman.
- **Partnered cross-functionally with Product and UI/UX** to design and implement frontends across the product suite, translating business requirements into shipping features.

Coleman Research | Client Associate | New York, NY May 2018 – Feb 2019

- Identified industry trends and qualified experts ahead of client requests, producing 33% of team sales and growing book of business with Tiger Cubs and similar investment firms by 15%+.
